**WESTERN ENERGY ALLIANCE'S RESPONSE BRIEF ON REMEDY**

---

**I. Plaintiffs Have No Private Right Action to Obtain the Permanent Injunctive Relief of Lease Cancellation**

To appropriately discuss remedy, the challenged decisions must be viewed in the proper context. Plaintiffs characterize their claims as challenges to a “lease sale” or to the “leases” and, therefore, conclude that the proper remedy is vacatur of those leases. This characterization exceeds the boundaries of the APA. Plaintiffs’ claims in this case may only fairly be viewed as challenging final agency action—the decision to offer parcels for lease—not the subsequent execution of the lease contracts. The remedy focus should be on the decision to lease, not the leases themselves.

The APA is not a limitless waiver of sovereign immunity, and only allows challenges to a final agency action. 5 U.S.C. § 704. The challenged final agency action here is reflected in a decision record that represents BLM’s official (and required) response to the public’s expressions of interest, submitted in accord with Mineral Leasing Act (MLA) procedures. WY485952-55. Plaintiffs make no complaints about the terms and conditions of the leases, or BLM’s conduct in implementing the leasing decisions through the ministerial acts of conducting lease sales, issuing the leases, or executing the contracts. Instead, Plaintiffs complain only of conduct *preceding* the leasing decisions, that is, (i) the NEPA analyses, prepared for and legally necessary for those decisions; and (ii) BLM’s determinations as to which nominated parcels would be offered for lease. *See* Compl., Doc. 1, ¶¶ 58, 59, 63, 68, 73, 76-78, 80, 83.

Importantly, Plaintiffs have no private right of action under the APA, MLA, NEPA, or FLPMA to challenge the subsequent execution of the leases that constitute lessees’ contractual and real property interests. Nor can they bootstrap their requested remedy of lease cancellation onto the procedural NEPA deficiencies related to the decision to lease found by this Court. Indeed, “[t]he remedy must of course be limited to the inadequacy that produced the injury in fact that the plaintiff has established.” *Lewis v. Casey*, 518 U.S. 343, 357 (1996).

Nonetheless, with sledgehammer precision, Plaintiffs now demand that the lease contracts be set aside and cancelled. This sleight of hand in terminology is intentional and important: in the event the Court orders vacatur, an order setting aside the lease sales and in turn requiring cancellation of the sold leases (rather than the final agency action of the decision to lease) would be excessive and would ignore the Supreme Court’s warning in *Monsanto* that remedial orders do no more than is necessary to redress the harm. *Monsanto Co. v. Geertson Seed Farms*, 561 U.S. 139, 142 (2010). Indeed, a permanent injunction requiring BLM to cancel the leases would circumvent the Supreme Court’s instruction in *Monsanto* that injunctions require satisfaction of the four-factor *Monsanto* test. *Standing Rock Sioux Tribe v. United States Army Corps of Eng’rs*, 985 F.3d 1032, 1054 (D.C. Cir. 2021). Plaintiffs have not attempted to do so.

Further, even if Plaintiffs had met the more rigorous standard for a permanent injunction, the Court cannot award the requested relief in the absence of the leaseholders. No lessee is a party to this action, and Plaintiffs have not attempted to join these necessary parties under Rule 19. Fed. R. Civ. P. 19; *Naartex Consulting Corp. v. Watt*, 722 F.2d 779, 788 (D.C. Cir. 1983) (holding that “parties who hold royalty interests, assignments, or interests in the title of federal leases, in the absence of special circumstances not present here, are indispensable parties in an action to cancel the lease . . .”). Thus, the Court cannot vacate the underlying leases in their absence.

## **II. Plaintiffs Have Not Met Their Burden Under *Allied-Signal* to Obtain the Significantly Disruptive Remedy of Vacatur**

### **A. Plaintiffs’ NEPA Arguments Studiously Ignore the Significant Lease Stipulations and Restrictions Imposed by BLM that Address Their Resources of Concern.**

Plaintiffs’ broad NEPA arguments do not dictate vacatur under the first prong of the D.C. Circuit’s *Allied-Signal* test. Plaintiffs do not argue, let alone demonstrate, that the lease stipulations, restrictions, and requirements imposed by BLM onto each lease parcel through BLM’s Lease Sale NEPA process are deficient.

In considering remedy, it is important to examine the purpose of NEPA in the context of the agency action being challenged. For a BLM oil and gas lease sale decision, NEPA informs BLM's decision-making on which parcels to offer for sale, and under what terms, conditions, and restrictions based on site-specific characteristics of the lands comprising each of those parcels. *See* Lease Sale EA Section 4.4.1, Lease Stipulation Code Index at WY485871-885 (courtesy copy attached under Attachment A.1); Lease Sale EA Section 4.1, Lease Sale Parcel List with Proposed Stipulations at WY485788-885 (courtesy copy attached under Attachment A.2).

Plaintiffs studiously ignore the lease stipulations and development restrictions imposed on the leases as the result of BLM's site-specific NEPA analysis. While Plaintiffs urge the Court to cancel the leases and void the lessees' property rights, Plaintiffs do not identify any lease where BLM failed to impose the required lease stipulation(s) for their resources of concern.

For example, to address potential cumulative impacts to greater sage-grouse and habitat, BLM imposed a lease stipulation on all applicable leases that require compliance with the State of Wyoming's disturbance cap prohibiting development of more than 5% of lands designated as priority (core) habitat. *See, e.g.*, Lease Stipulation WY\_BFO\_CSU\_PHMAC at WY485874; WY\_NFO\_CSU\_PHMAC and WY\_SW\_CSU\_PHMA at WY485882. While Plaintiffs argue that deficiencies in BLM's cumulative impacts analysis mandate lease cancellation, Plaintiffs take no issue with this lease stipulation and fail to explain why such a stipulation is not sufficient to address their greater sage-grouse cumulative impact concerns.

BLM imposed other lease stipulations on applicable lease parcels to address potential impacts to greater sage-grouse. *See, e.g.*, Lease Stipulations WY\_BFO\_CSU\_SSPF and WY\_BFO\_CSU\_SSWLH (surface disturbance pre-requisites) at WY485877; Lease Stipulations WY\_BFO\_TLS\_PHMAC, PHMAL, and PHMAWCA (seasonal limitations on development for

Greater Sage-Grouse) at WY485880; WY\_LFO\_TLS\_PHMAWCA (protecting greater sage-grouse winter concentration areas) at WY485882; *see also* Lease Notice No. 3 – Greater Sage-Grouse Habitat (applies to all parcels) at WY485885.

Similarly, for Big Game, examples include Lease Stipulation WY\_BFO\_CSU\_BGCW (big game crucial winter range) at WY485871; WY\_BFO\_CSU\_EC (elk calving areas) at WY485872; WY\_BFO\_CSU\_ECWC (elk crucial winter range and calving areas); WY\_BFO\_CSU\_SSWLH (special status species wildlife habitat) at WY485877; WY Standard Special Lease Notice II – Big Game Migration (addressing big game migration corridors designated by the State of Wyoming) at WY485885. For aquifers and groundwater, examples include Lease Notice 1041 – Water Monitoring Plan (pre-requisite for drilling permits) at WY485885; WY\_BFO\_H20500F (requirements for protection of springs and reservoirs) at WY485874; WY\_BFO\_CSU\_SSWLA (protection of perennial water) at WY485877.

Moreover, not all resources of concern exist on all of the leases, and it would be arbitrary to vacate the sale and cancel all leases sold at that sale for the leases that do not contain big game, greater sage-grouse or underlying aquifers. Plaintiffs have not identified any record evidence under the first prong of the *Allied-Signal* test to show BLM's NEPA deficiencies are so serious as to warrant lease cancellation.

#### B. The Significant Economic Harms to Private Parties from Vacatur Weigh Against It

As discussed in the Alliance's primary remedy brief, the economic and stranded investment is significant for the lessees, and also for other private parties with adjacent leases, mineral rights, and assets, that would be precluded or hindered in efficiently developing their leases and mineral rights that are not subject to this case. *See* Alliance Remedy Brief at 6-9 (Doc. 53) and Declarations of Kathleen Sgamma (Doc. 53-1) and Bryce Ballard (Doc. 53-2).

Moreover, the D.C. Circuit affords significant weight to the economic harm that would result to private parties in the event of vacatur of the agency decision and vacatur of the subsequent lease or license issued by the agency. *Oglala Sioux Tribe v. United States NRC*, 896 F.3d 520, 538 (D.C. Cir. 2018) (declining to vacate operating license when licensee had reasonably relied on agency ruling and faced grave economic harm if license were vacated) (citing *Pub. Emples. for Env'tl. Resp. v. Hopper*, 827 F.3d 1077, 1084 (D.C. Cir. 2016) (declining to vacate a wind power project owner's lease for a deficient NEPA document but requiring agency "to supplement [the NEPA document] with adequate geological surveys before [the project] may begin construction")).

Similarly, when a federal project or program involves the collection or payment of fees to or from private parties, such as the federal onshore oil and gas leasing program's collection of lease bids and annual lease rentals from lessees, this District, and D.C. Circuit favor remand without vacatur. *Resolute Forest Prods., Inc. v. USDA*, 130 F. Supp. 3d 81, 105 (D.D.C. 2015) ("'[C]ases that involve fee collection or payment distribution,' moreover, are particularly appropriate for remand without vacatur. This is especially true in the case of 'agency collection of fees,' including those involving the Department of Agriculture.") (citing and quoting *Milk Train, Inc. v. Veneman*, 310 F.3d 747, 756, (D.C. Cir. 2002); *Sugar Cane Growers Coop. of Fla. v. Veneman*, 289 F.3d 89, 98 (D.C. Cir. 2002)).

### **CONCLUSION**

The disruptive and severe economic consequences to lessees, the State of Wyoming, and third-party lease and mineral owners outweigh the procedural NEPA deficiencies that can be efficiently cured upon remand, particularly in light of the imposed lease stipulations that address the resources of concern. Under long established D.C. Circuit precedent, remand without vacatur is the appropriate and prudent remedy.

Respectfully submitted this 14th day of June 2024.

### Lease Notices and Stipulations

#### Lease Notice No. 1 – Reasonable Measures to Minimize Adverse Impacts to Resources (applies to all parcels)

Under Regulation 43 CFR 3101.1-2 and terms of the lease (BLM Form 3100-11), the authorized officer may require reasonable measures to minimize adverse impacts to other resource values, land uses, and users not addressed in lease stipulations at the time operations are proposed. Such reasonable measures may include, but are not limited to, modification of siting or design of facilities, timing of operations, and specification of interim and final reclamation measures, which may require relocating proposed operations up to 200 meters, but not off the leasehold, and prohibiting surface disturbance activities for up to 60 days.

The lands within this lease may include areas not specifically addressed by lease stipulations that may contain special values, may be needed for special purposes, or may require special attention to prevent damage to surface and/or other resources. Possible special areas are identified below. Any surface use or occupancy within such special areas will be strictly controlled or, if absolutely necessary, prohibited. Appropriate modifications to imposed restrictions will be made for the maintenance and operation of producing wells.

1. Slopes in excess of 25 percent.
2. Within 500 feet of surface water and/or riparian areas.
3. Construction with frozen material or during periods when the soil material is saturated or when watershed damage is likely to occur.
4. Within 500 feet of Interstate highways and 200 feet of other existing rights-of-way (i.e., U.S. and State highways, roads, railroads, pipelines, powerlines).
5. Within 1/4 mile of occupied dwellings.
6. Material sites.

GUIDANCE: The intent of this notice is to inform interested parties (potential lessees, permittees, operators) that when one or more of the above conditions exist, surface disturbing activities will be prohibited unless or until the

permittee or the designated representative and the surface management agency (SMA) arrive at an acceptable plan for mitigation of anticipated impacts. This negotiation will occur prior to development and become a condition for approval when authorizing the action. Specific threshold criteria (e.g., 500 feet from water) have been established based upon the best information available. However, geographical areas and time periods of concern must be delineated at the field level (i.e., "surface water and/or riparian areas" may include both intermittent and ephemeral water sources or may be limited to perennial surface water). The referenced oil and gas leases on these lands are hereby made subject to the stipulation that the exploration or drilling activities will not interfere materially with the use of the area as a materials site/free use permit. At the time operations on the above lands are commenced, notification will be made to the appropriate agency. The name of the appropriate agency may be obtained from the proper BLM Field Office.

Lease Notice No. 2 – National Historic Trails (applies to all parcels)

BACKGROUND: The Bureau of Land Management (BLM), by including National Historic Trails within its National Landscape Conservation System, has recognized these trails as national treasures. Our responsibility is to review our strategy for management, protection, and preservation of these trails. The National Historic Trails in Wyoming, which include the Oregon, California, Mormon Pioneer, and Pony Express Trails, as well as the Nez Perce Trail, were designated by Congress through the National Trails System Act (P.L. 90-543; 16 U.S.C. 1241-1251) as amended through P.L. 106-509 dated November 13, 2000. Protection of the National Historic Trails is normally considered under the National Historic Preservation Act (P.L. 89-665; 16 U.S.C. 470 et seq.) as amended through 1992 and the National Trails System Act. Additionally, Executive Order 13195, "Trails for America in the 21st Century," signed January 18, 2001, states in Section 1: "Federal agencies will...protect, connect, promote, and assist trails of all types throughout the United States. This will be accomplished by: (b) Protecting the trail corridors associated with national scenic trails and the high priority potential sites and segments of national historic trails to the degrees necessary to ensure that the values for which each trail was established remain intact." Therefore, the BLM will be considering all impacts and intrusions to the National Historic Trails, their associated historic landscapes, and all associated features, such as trail traces, grave sites, historic encampments, inscriptions, natural features frequently commented on by emigrants in journals, letters and diaries, or any other feature contributing to the historic significance of the trails. Additional National Historic Trails will likely be designated amending the National Trails System Act. When these amendments occur, this notice will apply to those newly designated National Historic Trails as well.

STRATEGY: The BLM will proceed in this objective by conducting a viewshed analysis on either side of the designated centerline of the National Historic Trails in Wyoming, except, at this time, for the Nez Perce Trail, for the purpose of identifying and evaluating potential impacts to the trails, their associated historic landscapes, and their associated historic features. Subject to the viewshed analysis and archaeological inventory, reasonable mitigation measures may be applied. These may include, but are not limited to, modification of siting or design of facilities to camouflage or otherwise hide the proposed operations within the viewshed. Additionally, specification of interim and final reclamation measures may require relocating the proposed operations within the leasehold. Surface disturbing activities will be analyzed in accordance with the National Environmental Policy Act of 1969 (P.L. 91- 190; 42 U.S.C. 4321-4347) as amended through P.L. 94-52, July 3, 1975 and P.L. 94-83, August 9, 1975, and the National Historic Preservation Act, supra, to determine if any design, siting, timing, or reclamation requirements are necessary. This strategy is necessary until the BLM determines that, based on the results of the completed viewshed analysis and archaeological inventory, the existing land use plans (Resource Management Plans) have to be amended. The use of this lease notice is a pre-decisional action, necessary until final decisions regarding surface disturbing restrictions are made. Final decisions regarding surface disturbing restrictions will take place with full public disclosure and public involvement over the next several years if BLM determines that it is necessary to amend existing land use plans.

GUIDANCE: The intent of this notice is to inform interested parties (potential lessees, permittees, operators) that when any oil and gas lease contains remnants of National Historic Trails, or is located within the viewshed of a National Historic Trails' designated centerline, surface disturbing activities will require the lessee, permittee, operator or, their designated representative, and the surface management agency (SMA) to arrive at an acceptable plan for mitigation of anticipated impacts. This negotiation will occur prior to development and become a condition for approval when authorizing the action.

Lease Notice No. 3 – Greater Sage-Grouse Habitat (applies to all parcels)

Greater Sage-Grouse Habitat: The lease may in part, or in total, contain important Greater sage-grouse habitats as identified by the BLM, either currently or prospectively. The operator may be required to implement specific measures to reduce impacts of oil and gas operations on the Greater sage-grouse populations and habitat quality. Such measures shall be developed during the Application for Permit to Drill (APD) on-site and environmental review process and will be consistent with the lease rights granted.

Lease Notice 1041 – Water Monitoring Plans

Lease Notice. Require water monitoring plans for new activities resulting in surface discharges of water to track changes in receiving channels and to minimize adverse impacts to watershed health. If adverse impacts to receiving channels or watershed health occur, require development and implementation of water management plans which include reclamation strategies and mitigation to address impacts. Avoid BLM-authorized activities and infrastructure such as unlined impoundment ponds/pits, reserve pits, and evaporation ponds that could result in the contamination of sensitive water resources, including Source Water Protection Areas identified in Wellhead or Source Water Protection Plans approved local governing bodies and “High” and “Moderately High” sensitivity aquifer systems identified through the use of the Wyoming Groundwater Vulnerability Assessment Handbook or similar document as updated over time to the maximum extent possible. Where such activities or infrastructure cannot be avoided, apply mitigation to reduce potential impacts on a case-by-case basis.

WY Std Special Lease Notice II – Big Game Migration

Special Lease Notice: This parcel is located wholly or partially within a big game migration corridor designated by the State of Wyoming. The lessee or their designated operator will be required to work with the BLM and the State of Wyoming to take reasonable measures (see 43 CFR 3101.1-2) to maintain big game migration corridor functionality pursuant to State of Wyoming Executive Order 2020-1. The BLM will encourage the use of Master Development Plans for operations proposed on this lease parcel in accordance with Onshore Oil and Gas Order No. 1.

Special Lease Notice – Unplugged Well Bore

Unplugged wellbore(s) and/or other facilities are located on this parcel. For more information, please contact a Petroleum Engineer at the [insert office name] Field Office at (307) [insert phone number].

Lease Stipulation No. 1 – Historic Properties (applies to all parcels)

This lease may be found to contain historic properties and/or resources protected under the National Historic Preservation Act (NHPA), American Indian Religious Freedom Act, Native American Graves Protection and Repatriation Act, Executive Order 13007, or other statutes and executive orders. The BLM will not approve any ground disturbing activities that may affect any such properties or resources until it completes its obligations (e.g., State Historic Preservation Officer (SHPO) and tribal consultation) under applicable requirements of the NHPA and other authorities. The BLM may require modification to exploration or development proposals to protect such properties, or disapprove any activity that is likely to result in adverse effects that cannot be successfully avoided, minimized or mitigated

Lease Stipulation No. 2 – Endangered Species Act Section 7 Consultation Stipulation (applies to all parcels)

The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. The BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. The BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or consultation.

Lease Stipulation No. 3 – Multiple Mineral Development (applies to all parcels)

Operations will not be approved which, in the opinion of the authorized officer, would unreasonably interfere with the orderly development and/or production from a valid existing mineral lease issued prior to this one for the same lands.
